03

CORE VALUES

Creating a customer centric company that is continually relevant ▪ Treating our clients with respect and honesty – maintaining the highest level of professionalism

Know Us Better

MMAMOTHI BELEDI
CONSTRUCTION & PROJECTS

MMAMOTHI BELEDI CONSTRUCTION AND PROJECTS was founded with a vision of contributing to a clean environment thus coming up with innovative strategies for municipalities, departments, mines, factories, shopping malls/complexes, hospitals, schools, households and on site at events. Also, through our civil works division, we aim to be one of the critical contributors to infrastructure development of the Republic of South Africa by providing cost effective services to suit our economic context. Equally important; our transport logistics, and earth moving equipment business is a key pillar the group. We adhere to the principles of responsible and ethical management. Moreover, our authentic leadership and our pro-active stance on people, planet, and profit is a key environmental, economic, and social priority in the 21st century. The world's leading economies have all recognised that sustainability is a key business issue, and companies are that position themselves for global success recognise this. We share our knowledge, our expertise and our resources; so that everyone understands what the ever improving market has to offer so we can know how to respond. We actively pursue the development and adoption of the best practices worldwide to improve our products and services. Furthermore, we dare to dare to innovate, to pioneer, to evolve, and always challenge the norms and better ways of doing things. In addition, we want to be the preferred provider of innovative, cost effective, efficient business solutions in Southern Africa and give our clients a piece of mind, by meeting their needs at their convenient time and cost.
